Bidding

When you have the current highest bid on an item, you are notified in two ways. It will say **Leading Bidder** above the item image and the **Bid** button will be grayed out to prevent you from bidding against yourself.

The **Bid History** will display your bidder number and other internet bidders's numbers in red. The leading bid is always at the top. The **I Am Done** button sends a message to the auctioneer that you no longer want to bid any higher on the current item. If you select this button and are then outbid, you will still be able to place another bid.
